2. CONSULTING SERVICES FRAMEWORK

1. Problem-Solving Sessions

Purpose

Focused 20-minute consultations designed to resolve pressing challenges or unlock new opportunities. These sessions provide a clear space to think strategically, clarify decisions, and develop monetizable solutions.

How It Works

In every session, we:

- Address a specific challenge or opportunity in real time.
- Review your **Business Personality Quiz** results to align solutions with your entrepreneurial style.
- Generate actionable steps or innovative solutions you can immediately apply.

Package Breakdown

- **Basic (1 Session):** High-level insight to tackle a single issue quickly and efficiently.
- **Starter (2 Sessions):** Deeper issue clarification across one or two topics, with refined next steps.
- **Professional (4 Sessions):** Expanded coverage to address multiple areas with layered insights and solutions.

- **Premium (10 Sessions):** Continuous support with evolving strategies to handle ongoing challenges and opportunities.

Value Delivered

- Immediate clarity for complex decisions.
 - Expert-driven ideation to unlock new growth pathways.
 - Ongoing advisory in higher packages for long-term strategic evolution.
-

2. Audits & Feasibility

Purpose

Objective evaluations of your business, idea, or concept to validate its viability and identify improvement opportunities before significant investment.

How It Works

Audits & Feasibility involve:

- Reviewing originality, differentiation, and operational strength.
- Assessing market alignment and potential.
- Identifying risks and offering clear recommendations to mitigate them.

Package Breakdown

- **Basic (Overview):** A concise review to spot obvious gaps or red flags.
- **Starter (Report):** A structured feasibility report with specific insights and actionable feedback.
- **Professional (Full Study):** A detailed examination covering market fit, competitive positioning, and business model analysis.
- **Premium (Ongoing):** Continuous auditing and refinement to keep your strategy aligned as your business evolves.

Value Delivered

- Prevents wasted time and investment on unviable ideas.
 - Provides a clear, evidence-based picture of opportunity potential.
 - Ensures strategic alignment and continuous recalibration in premium support.
-

3. Implementation Strategy Development

Purpose

A customized roadmap that transforms validated ideas into clear, executable steps. This bridges the gap between concept and operational success.

How It Works

Implementation strategies include:

- A phased roadmap with actionable tasks and timelines.
- Resource allocation guidance (time, budget, tools).
- Risk mitigation strategies to anticipate and manage barriers.
- Progress metrics to track results and stay accountable.

Package Breakdown

- **Basic (Tips):** Quick-start guidance with simple, actionable advice to get moving fast.
- **Starter (Outline):** A lightweight roadmap outlining key steps and immediate priorities.
- **Professional (Full Plan):** A detailed, multi-phase implementation strategy with milestones and measurable goals.
- **Premium (Ongoing):** A living strategy updated continuously to adapt to changes, ensuring sustained growth.

Value Delivered

- Converts ideas into structured action plans.
- Provides clarity on priorities and next steps.
- Scales from quick-start guidance (Basic) to continuous, adaptive planning (Premium).

How the Framework Works Together

These three pillars work in tandem to provide a seamless consulting journey:

1. **Problem Solving Sessions** identify and clarify challenges or opportunities.
2. **Audits & Feasibility** validate ideas and reduce risk with objective insights.
3. **Implementation Strategy Development** turns validated concepts into structured, executable plans.

At higher package levels, these services integrate into an ongoing cycle of analysis, problem-solving, and implementation to drive continuous improvement and measurable results.

Summary by Package

- **Basic:** High-level insights and quick-start guidance for individuals seeking immediate clarity.
- **Starter:** Expanded analysis and planning for validating ideas and addressing early-stage business needs.
- **Professional:** Comprehensive audits and full implementation strategies for structured growth.
- **Premium:** Continuous support with iterative problem-solving, live feasibility updates, and evolving strategies for long-term success.

3. CREATIVE THINKING TRAINING
